Healthcare Systems of America Reports 20% Growth in Cash Collections.

FORT LAUDERDALE, Fla., Nov. 20, 2026 — Healthcare Systems of America (HSA) today announced that cash collections rose 20% in the week ending November 20 compared with the previous week.

The latest gain builds on consistent growth in collections since HSA transitioned all eight hospitals to a new electronic medical record system.

“Our teams delivered where it mattered most during the transition: all eight hospitals stayed open and continued serving patients,” said Faisal Gill, CEO of Healthcare Systems of America. “We continue to grow our volumes, expand patient care, and increase our collections.”

About Healthcare Systems of America

Healthcare Systems of America operates eight hospitals across Florida, Louisiana and Texas. HSA’s mission is to breathe new life into its hospitals by investing in facilities and expanding access to care in the communities they serve. Its hospitals provide emergency, surgical, cardiac, maternity and specialty care.
